

UNIVERSAL MASK CARRIER

The new Avon Protection individual mask carrier is constructed of field proven, robust webbing that will withstand extreme day to day operations. Designed with a MOLLE attachment accommodating various wearing positions, the carrier can comfortably contain an air purifying respirator (APR), filter, vision correction and required accessories. Supplied in tactical black, the new carrier provides an affordable yet very functional APR storage solution.

BENEFITS

- Extensive storage to securely contain APR and required accessories
- Easy to don and comfortable for extended use
- Quick release, rapid access to the respirator
- Tactical black color
